

1. Record Nr.	UNINA9910683384203321
Titolo	Amyloid- : Structure, Function, and Pathophysiological Significance in Neurodegenerative Diseases // edited by Masashi Tanaka, Kenjiro Ono, Satoshi Saito
Pubbl/distr/stampa	Basel, Switzerland : , : MDPI - Multidisciplinary Digital Publishing Institute, , 2023
ISBN	3-0365-6713-5
Descrizione fisica	1 online resource (276 pages)
Disciplina	616.831
Soggetti	Alzheimer's disease - Patients - Rehabilitation Alzheimer's disease - Patients - Care
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This reprint includes 16 original articles published in a Special Issue that focuses on the pathological significance of amyloid- in neurodegenerative diseases, such as Alzheimer's disease, the main cause of dementia. Collections in this reprint provide novel insights into the underlying mechanisms and therapeutic potentials of repositioning drugs and new agents for Alzheimer's disease and related dementias. These findings are expected to contribute to the development of innovative strategies for the prevention and treatment of such diseases.
