

1. Record Nr.	UNINA9910684600203321
Titolo	Small Animal Soft Tissue Surgery // edited by Eric Monnet
Pubbl/distr/stampa	Hoboken, NJ : , : John Wiley & Sons, Inc., , [2023] ©2023
ISBN	1-119-69374-8 1-119-69372-1 1-119-69375-6
Edizione	[Second edition.]
Descrizione fisica	1 online resource (1043 pages)
Disciplina	636.0897
Soggetti	Pet medicine Pets - Surgery Veterinary surgical emergencies
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover -- Title Page -- Copyright Page -- Contents -- List of Contributors -- Preface -- About the Companion Website -- Section 1 Gastrointestinal Surgery -- Chapter 1 Disorders of the Salivary Gland -- Anatomy -- Pathophysiology -- Specific disorders -- Salivary mucocele (sialocele) -- Cervical mucocele -- Ranula -- Pharyngeal mucocele -- Zygomatic mucocele -- Parotid mucocele -- Neoplasia -- Sialolithiasis -- Sialoadenitis -- Necrotizing Sialometaplasia -- References -- Chapter 2 Surgical Treatment of Esophageal Disease -- Surgical principles -- Surgical technique -- Surgical approaches -- Surgical procedures -- Diagnostics -- Clinical signs and physical examination findings -- Radiography -- Esophageal endoscopy -- Computed tomography -- Esophageal disease -- Esophageal strictures -- Esophageal diverticula -- Esophageal fistula -- Esophageal neoplasia -- Esophageal foreign body -- References -- Chapter 3 Vascular Ring Anomalies -- Different types of vascular ring anomalies -- Diagnostic -- Clinical presentation -- Imaging techniques -- Surgical treatment -- Intercostal thoracotomy -- Thoracoscopy -- Complications and aftercare -- References -- Chapter 4 Hiatal Hernia -- Anatomy and physiology -- Pathophysiology -- History and clinical signs --

Diagnosis -- Treatment -- Medical treatment -- Surgical treatment --  
References -- Chapter 5 Pyloric Hypertrophy -- Pathophysiology --  
Clinical signs and physical examination -- Diagnostics -- Bloodwork --  
Radiographs -- Endoscopy -- Surgical management -- References --  
Chapter 6 Gastroduodenal Ulceration -- Pathophysiology --  
Pathogenesis of gastroduodenal ulcers in dogs -- Nonsteroidal anti-  
inflammatory drugs and gastroduodenal ulcers -- Pathogenesis  
of gastroduodenal ulceration in cats -- Clinical presentation of dogs  
and cats with gastroduodenal ulceration -- Diagnosis  
of gastroduodenal ulceration.  
Treatment of gastroduodenal ulceration -- Acid suppression therapy --  
Cytoprotection -- Adjunctive treatments -- Surgical treatment --  
Outcome -- References -- Chapter 7 Gastric Dilatation Volvulus --  
Etiology -- Intrinsic risk factors -- Extrinsic risk factors -- Previous  
splenectomy -- Pathophysiology -- Clinical signs -- Bloodwork --  
Prognostic tests -- Cardiac biomarkers and echocardiography -- Serum  
lactate -- Inflammatory biomarkers C-reactive protein, high-mobility  
group box 1, and procalcitonin -- Immediate diagnostics  
and treatment/stabilization -- Intravenous fluid therapy -- Positive  
inotropes and vasopressors -- Antiarrhythmic drugs -- Antibiotics --  
Adjunct therapies -- Gastric decompression techniques -- Diagnostic  
imaging -- Assessment of gastric wall viability -- Partial gastrectomy  
-- Gastropexy techniques -- Laparoscopic-assisted derotation  
and gastropexy -- Prophylactic gastropexy -- Postoperative  
management -- Prognosis -- References -- Chapter 8 Focal and Linear  
Gastrointestinal Obstructions -- Pathophysiology -- Clinical signs  
and physical examination -- Diagnostics -- Bloodwork -- Fluid  
analysis -- Radiography -- Ultrasound -- Endoscopy -- Computed  
tomography -- Magnetic resonance imaging -- Surgical management  
-- Surgical considerations -- Surgical techniques -- Minimally invasive  
techniques -- Biopsies -- Leak testing -- Enteroplication --  
Postoperative care -- Surgical complications and outcome --  
Conclusion -- References -- Chapter 9 Mesenteric Volvulus  
and Colonic Torsion -- Mesenteric volvulus -- Pathophysiology --  
Etiology -- Diagnosis -- Treatment -- Prognosis -- Colonic  
torsion/volvulus -- Pathophysiology -- Etiology -- Diagnosis --  
Treatment -- Prognosis -- References -- Chapter 10 Gastrointestinal  
Neoplasia -- Tumors of the stomach, small intestine, colon, and rectum  
-- Pathology -- Clinical signs -- Diagnosis.  
Surgical treatment -- Palliative treatments: stenting/rerouting/bypass  
-- Adjuvant therapy -- Prognosis -- Clinical signs -- Diagnosis --  
Surgical treatment -- Chemotherapy -- Radiation therapy -- Prognosis  
-- References -- Chapter 11 Megacolon -- Pathophysiology --  
Congenital megacolon (Hirschsprung disease) -- Idiopathic megacolon  
-- Functional outlet obstruction -- Clinical presentation -- Feline  
megacolon -- Canine megacolon -- Diagnosis -- Concurrent  
conditions -- Perineal hernia -- Inflammatory bowel disease -- Medical  
treatment -- Surgical treatment -- Colotomy -- Subtotal colectomy --  
Methods of anastomosis -- Pelvic canal osteotomy -- Postoperative  
management and outcome -- Complications -- Anastomotic  
leakage/dehiscence -- Post-colectomy intestinal adaptation --  
Stricture -- Recurrent constipation -- Fecal incontinence -- Prognosis  
-- References -- Chapter 12 Anal Sac Disease -- Anatomy -- Anal sac  
diseases -- Neoplasia -- Anal sacculitis/impaction/abscessation --  
Surgery of the anal sacs -- Open anal sacculotomy -- Closed anal  
sacculotomy -- References -- Section 2 Liver, Gallbladder,  
and Pancreas -- Chapter 13 Portosystemic Shunts -- Hepatic  
encephalopathy -- Pathogenic factors implicated in hepatic

encephalopathy -- Brain edema -- Glutamate, gamma-aminobutyric acid and benzodiazepine receptors -- Alteration of amino acid metabolism -- Mercaptans -- Short-chain fatty acids -- Phenols -- Other identified factors -- Signalment, clinical signs, and physical examination -- Biochemical profile, hematology, and urinalysis -- Special blood tests -- Imaging -- Radiography -- Ultrasound -- Computed tomography -- Nuclear medicine -- Magnetic resonance imaging -- Nonsurgical differentials -- Medical treatment of dogs with portosystemic shunt -- Decreased production and absorption of ammonia and other neurotoxins -- Lactulose -- Antibiotics. Retention enema -- Probiotics and fecal transplantation -- Acarbose -- L-ornithine-L-aspartate -- Dietary management -- Controlling precipitating factors -- Benzodiazepine receptor modulators -- Surgical treatment -- Identification of a portosystemic shunt in surgery -- Where to attenuate a shunt -- Attenuation of the shunt -- Ligature -- Ameroid ring -- Silicone-polyacrylic acid gradual venous occlusion device -- Cellophane or thin film banding -- Hydraulic occluder -- Embolization with stent and coils -- Other techniques for intrahepatic shunts -- Prognostic indicators -- References -- Chapter 14 Liver Lobe Torsion and Abscess -- Liver Lobe Torsion -- Etiology and Pathophysiology -- Clinical signs -- Diagnostics -- Treatment and complications -- Postoperative care -- Prognosis -- Liver abscess -- Clinical signs -- Laboratory -- Imaging -- Cytology -- Treatment -- Prognosis -- References -- Chapter 15 Liver Tumors and Partial Hepatectomy -- Specific tumor types -- Hepatocellular tumors -- Biliary tumors -- Carcinoids (neuroendocrine tumors) -- Sarcomas -- Clinical signs -- Laboratory findings -- Imaging modalities -- Abdominal radiography and ultrasonography -- Computed tomography -- Surgical treatment -- Preoperative considerations -- Surgical approach to the liver -- Methods of liver lobectomy -- Minimizing intraoperative hemorrhage -- General anatomy of the liver -- Left lateral lobectomy -- Left medial lobectomy -- Left division resection (left lateral and left medial lobes) -- Central division -- Right lateral and caudate process of the caudate liver lobe -- Papillary process of the caudate lobe -- Postoperative care -- Complications -- References -- Chapter 16 Gallbladder Mucocele -- Etiology -- Diagnosis -- History and physical examination -- Bloodwork -- Urinalysis -- Ultrasonography -- Treatment -- References. Chapter 17 Extrahepatic Biliary Tract Obstruction -- Physiology of the biliary system -- Clinical signs of extrahepatic biliary disease -- Diagnostic evaluation -- Bloodwork -- Imaging modalities -- Microbiology -- Pathology affecting the biliary system -- Cholelithiasis -- Pancreatitis -- Neoplasia -- Mucocele -- Bile peritonitis -- Medical management and perioperative therapeutics -- Surgery related to the biliary system -- Surgery of the gallbladder -- Cholecystotomy -- Cholecystectomy with laparotomy -- Cholecystectomy with laparoscopy -- Perioperative complications -- Surgery of the biliary ducts -- Choledochotomy -- Choledochoduodenostomy -- Surgery to palliate acute and chronic biliary outflow acute obstruction: cholecystostomy and choledochal stenting -- Choledochal stenting -- Cholecystostomy tubes -- Chronic obstruction: biliary-enteric anastomoses (cholecystoenterostomy) -- Prognosis for patients with extrahepatic biliary tract obstruction -- References -- Chapter 18 Other Surgical Diseases of the Gallbladder and Biliary Tract: Cholecystitis, Neoplasia, Infarct, and Trauma -- Trauma -- Necrotizing cholecystitis and cystic artery infarction -- Emphysematous cholecystitis -- Neoplasia -- References -- Chapter 19 Pancreatitis -- Pathogenesis -- Etiology and risk factors -- Diagnosis -- Signalment -- Clinical signs

and physical examination findings -- Clinical pathology -- Laboratory tests for pancreatitis -- Diagnostic imaging -- Pathology -- Cytology -- Treatment -- Treatment of the cause -- Fluid therapy -- Electrolyte and acid-base therapy -- Nutrition -- Plasma and blood transfusion -- Analgesic therapy -- Antiemetic therapy -- Appetite stimulants -- Antibiotics -- Glucocorticoids -- Surgery for pancreatitis -- Temporary bile diversion -- Feeding tube placement -- Peritoneal lavage -- Pancreatic and peripancreatic fluid collections. Walled-off necrosis (previously termed pancreatic abscess).

---

Sommario/riassunto

"Small Animal Soft Tissue Surgery, Second Edition offers a thoroughly revised new edition of this comprehensive, detailed reference to surgical syndromes and diseases in small animal patients. Featuring detailed surgical descriptions accompanied by high-quality illustrations, the book updates the procedures throughout to include new and revised techniques. New chapters cover pyloric hypertrophy, coagulation factors and anticoagulation strategies, and pacemakers, with a newly standalone chapter on persistent aortic arches. Organized by body system, each section of the book includes a brief review of surgical anatomy and physiology. Chapters present surgical techniques, with information on pathophysiology, diagnosis, treatment, and prognosis, and a companion website provides video clips and slideshows demonstrating the procedures. Relying on the very latest literature to present the current state of the art, Small Animal Soft Tissue Surgery is an essential reference for small animal surgeons, residents, and practitioners performing soft tissue surgery"--
