Sommario/riassunto	Die gesellschaftliche Relevanz visueller Kommunikation nimmt immer weiter zu. Postmoderne Bildparodien sind Teil dieser Kultur. Dabei erschöpfen sie sich nicht im Aspekt des Komischen. Johanna Hornauer erläutert am Beispiel ausgewählter Werke von Sigmar Polke, dass Bildparodien eine kritische Auseinandersetzung mit Geschichte als autoritativer Instanz darstellen. Ihre Untersuchung von postmodernen Bildparodien als ästhetischer Praxis und Intervention in bestehende (Herrschafts-)Diskurse entwickelt neue Analysestrategien und fordert damit unter medienkritischer Perspektive ein generelles »Lesenlernen« von Bildern, das im Museum ebenso nützlich ist wie auf Social Media.

Sommario/riassunto	Over the past two decades, there has been a clear trend toward integrating the regulation and supervision of banks, nonbank financial institutions, and securities markets. This paper reviews the international experience with integrated supervision. We survey the theoretical arguments for and against the integrated supervisory model, and use data on compliance with international standards to assess the validity of some of these arguments. We find that (i) full integration is associated with higher quality of supervision in insurance and securities and greater consistency of supervision across sectors, after controlling for the level of development; and (ii) fully integrated supervision is not associated with a significant reduction in supervisory staff.
