Authorization Card Repudiation to Perform a Secure Data Communication in MANET -- Developing a Conceptual Framework for Smart Education Environment integrating IoT in Architectural Education adapting Global Competence -- Energy Bill Minimisation of Dynamic Tariff Bound Residential Consumers by Intentional Load Shifting -- Detection of Authorized Nodes to Provide an Optimal Secure Communication in Amalgamated Internet MANET -- Enhanced hybrid optimization technique to find optimal solutions for task scheduling in cloud-fog computing environments.

Sommario/riassunto	This book constitutes the refereed and selected papers presented during the Third International Conference on Internet of Things, ICIoT 2022, held in Chennai, India, in April 2022. The 10 papers were thoroughly reviewed and selected from the 100 qualified submissions. They focus on application of IoT in the field of Computer Science and Information Technology as well as on Industrial IoT.
