| Note generali           | Revised edition of: Abernathy's surgical secrets / [edited by] Alden H. Harken, Ernest E. Moore. 6th ed. ©2009  |
| Nota di bibliografia    | Includes bibliographical references and index.  |
| Nota di contenuto       | I. General topics -- Are you ready for your surgical rotation? -- Cardiopulmonary resuscitation -- How to treat all cardiac dysrhythmias -- How to think about shock -- Congestive heart failure (CHF) and pulmonary insufficiency -- Mechanical ventilation -- Why get arterial blood gases? -- Fluids, electrolytes, Gatorade, and sweat -- Nutritional assessment, parenteral, and enteral nutrition -- What does postoperative fever mean? -- Surgical wound infection -- Priorities in evaluation of the acute abdomen -- Surgical infectious disease -- Risks of blood-borne disease -- Sepsis -- Frailty -- II. Trauma. Initial assessment -- Posttraumatic hemorrhagic shock -- Traumatic brain injury -- Spinal cord injuries -- Penetrating neck trauma -- Blunt thoracic trauma -- Penetrating thoracic trauma -- Blunt abdominal trauma -- Penetrating abdominal trauma -- Hepatic and biliary trauma -- Splenic trauma -- Pancreatic and duodenal injury -- Trauma to the colon and rectum -- Pelvic fractures -- Upper urinary tract injuries -- Lower urinary tract injury and pelvic trauma -- Extremity vascular injuries -- Facial lacerations -- Maxillofacial trauma -- Basic care of hand injuries -- Burns -- Pediatric trauma -- III. Abdominal surgery. Appendicitis -- Gallbladder disease -- Pancreatic cancer -- Acute pancreatitis -- Diagnosis and therapy of chronic pancreatitis -- Portal hypertension and esophageal varices -- Gastroesophageal reflux disease -- Esophageal cancer -- Acid-peptic ulcer disease -- Small bowel obstruction -- Intestinal ischemia -- Diverticular disease of the |

colon -- Acute large bowel obstruction -- Inflammatory bowel disease  
-- Upper gastrointestinal bleeding -- Lower gastrointestinal bleeding  
-- Colorectal polyps -- Colorectal carcinoma -- Anorectal disease --  
Inguinal hernia -- Bariatric surgery -- IV. Endocrine surgery.  
Hyperparathyroidism -- Hyperthyroidism -- Thyroid nodules and  
cancer -- Surgical hypertension -- Adrenal laparoscopic adrenalectomy  
incidentaloma -- V. Breast surgery. Breast masses -- Primary therapy  
for breast cancer -- VI. Other cancers. What is cancer? -- Melanoma --  
Non-melanoma skin cancer -- Parotid tumors -- Neck masses -- VII.  
Vascular surgery. What is atherosclerosis? -- Arterial insufficiency --  
Carotid disease -- Abdominal aortic aneurysm -- Venous disease --  
Noninvasive vascular diagnostic laboratory -- VIII. Cardiothoracic  
surgery. Coronary artery disease -- Mitral stenosis -- Mitral  
regurgitation -- Aortic valvular disease -- Thoracic surgery for non-  
neoplastic disease -- Lung cancer -- Solitary pulmonary nodule --  
Dissecting aortic aneurysm -- IX. Pediatric surgery. Hypertrophic  
pyloric stenosis -- Intestinal obstruction of neonates and infants --  
Tracheoesophageal malformations -- Tracheoesophageal  
malformations -- Congenital diaphragmatic hernia -- Abdominal  
tumors -- Congenital cysts and sinuses of the neck -- X.  
Transplantation. Liver transplantation -- Kidney and pancreas  
transplantation -- Heart transplantation -- Mechanical circulatory  
support -- Lung transplantation -- Penile and scrotal urologic  
emergencies -- Urolithiasis -- XI. Urology. Renal cell carcinoma --  
Bladder cancer -- Prostate cancer -- Urodynamics and voiding  
dysfunction -- Pediatric urology -- XII. Health care. Can health care be  
reformed? -- Ethics in the surgical intensive care unit --  
Professionalism -- Required reading.
