

1. Record Nr.	UNINA9910687983003321
Titolo	Electron Microscopy // Mohsen Mhadhbi, editor
Pubbl/distr/stampa	London : , : IntechOpen, , 2022
Descrizione fisica	1 online resource (162 pages)
Disciplina	502.825
Soggetti	Electron microscopy Electron microscopes
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This book provides an overview of the principles and types of electron microscopes. It also describes the different practical applications of electron microscopes, ranging from particle analysis and materials characterization to industrial failure analysis and process control. Over eight chapters divided into two sections, this book gives readers a comprehensive and updated review of the latest advances in electron microscopy.
