Sommario/riassunto	The book brings together a series of contributions with a common goal of reflecting the links between economic development and rural development. The scenario is dotted not only with old and new wounds but also with innovative strategies in an attempt to overcome existing delays. The chapters of the book are composed of scenarios full of case studies. The plans to be adopted to help the countries that have lagged behind fueled an intense debate since the obstacles to development, as evidenced by the extensive scientific literature available, now appeared to be the realities present in the socio-economic structures of a large number of villages. Although the data available are still few, it is assumed that the Covid-19 pandemic will make a landscape already full of criticalities even more fragile.
