

1. Record Nr.	UNINA9910688146303321
Titolo	Zoonosis of Public Health Interest // edited by Gilberto Bastidas
Pubbl/distr/stampa	London : , : IntechOpen, , 2022
Descrizione fisica	1 online resource (170 pages)
Disciplina	616.959
Soggetti	Zoonoses Public health
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	1. Introductory Chapter: Why the Study of Zoonoses? -- 2. Zoonosis Aspects to Consider for Its Approach -- 3. Rabies: Incurable Biological Threat -- 4. Implications of COVID-19 on Public Policy, Supply Chain Disruptions, and Monitoring Methods -- 5. Zoonotic Parasites and Vector-Borne Parasitoses -- 6. The Prevalence and Risk Factors Associated with Tungiasis Infestations in Uganda: Implications for Vector Borne and Neglected Tropical Disease Control -- 7. Exosomes Therapy in Zoonoses -- 8. Emerging and Re-Emerging Bacterial Zoonoses: A Nigerian Perspective on Control, Prevention and Intervention -- 9. Neotropical Echinococcosis: A Review.
Sommario/riassunto	Zoonosis is a clear manifestation of a highly complex public health problem. This book discusses various aspects of zoonotic diseases, including their epidemiological behavior, transmission, pathogenesis, diagnosis, treatment, and prevention and control. The information contained herein will help in the development of effective health programs to control and protect against these pathologies.
