

1. Record Nr.	UNINA9910688147903321
Titolo	Giant-Cell Arteritis / / edited by Imtiaz A. Chaudhry
Pubbl/distr/stampa	London : , : IntechOpen, , 2022
Descrizione fisica	1 online resource (126 pages) : illustrations
Disciplina	616.079
Soggetti	Immunology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	Giant cell arteritis (GCA) is a systemic vasculitis that affects medium- to large-size arteries in which an inflammatory reaction destroys the media of the artery wall with the fragmentation of the elastic lamina, which can result in acute vision loss if not treated in a timely manner. The other common visual symptoms may include diplopia due to cranial nerve palsies and transient visual loss. This book provides a comprehensive overview of GCA, with chapters on epidemiology, cellular and molecular characteristics of the disease, extra-cranial involvement of GCA, medical imaging, and much more.
