

1. Record Nr.	UNINA9910688203603321
Titolo	Lupus : need to know // edited by Reem Hamdy Abdellatif Mohammed
Pubbl/distr/stampa	London : , : IntechOpen, , 2021
Descrizione fisica	1 online resource (168 pages)
Collana	Rheumatology
Disciplina	616.772
Soggetti	Lupus Erythematosus, Systemic
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>Systemic lupus erythematosus (SLE) is a multisystem, immune-mediated, inflammatory disease of unknown etiology. It is difficult to diagnose and thus effective intervention in SLE patients is often delayed. This book is a comprehensive guide to lupus, with chapters on diagnosis, assessment, treatment, the link between lupus and endocrinopathies, lupus and pregnancy, and advances in therapeutics. The book is presented by devoted authors who sought the latest evidence-based data to provide a well-structured display aiming at setting standards for best practice guidelines in the diagnosis and management of each and every section discussed in the "Lupus- Need to Know."</p>
