| Titolo | Corticosteroids : a paradigmatic drug class // Celso Pereira, editor |
| Pubbl/distr/stampa | London : , : IntechOpen, , 2021 |
| Descrizione fisica | 1 online resource (128 pages) |
| Disciplina | 615.364 |
| Soggetti | Adrenocortical hormones Therapeutics |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Sommario/riassunto | Corticosteroids have a broad spectrum of mechanisms making them useful for treating a variety of pathological entities. They are crucial drugs in clinical control in a plethora of patients, despite recent advances resulting from the availability of new molecules with great selectivity for different receptors, cells, or biological mediators. This book includes high-quality scientific reviews of corticosteroids and their numerous uses. |
