| 1. Record Nr. | UNINA9910688229903321 |
| Autore | Kimberly Sue Schluns |
| Titolo | Diverse functions of mucosal resident memory T cells [[electronic resource] /] / edited by Kimberly Sue Schluns and Kim Klonowski |
| Pubbl/distr/stampa | Frontiers Media SA, 2015 France : , : Frontiers Media SA, , 2015 |
| ISBN | 9782889195398 (ebook) |
| Descrizione fisica | 1 online resource (86 pages) : colour illustrations, charts |
| Collana | Frontiers Research Topics |
| Disciplina | 616.07/9 |
| Soggetti | Microbiology & Immunology Biology Health & Biological Sciences |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Bibliographic Level Mode of Issuance: Monograph |
| Nota di bibliografia | Includes bibliographical references. |
| Sommario/riassunto | Early studies recognized the unique phenotype and attributes of T cells found in mucosal tissues, such as the intestines, skin, lung and female reproductive tract. This special topic issue will cover many aspects of mucosal-resident T cell biology during infection and disease and is dedicated to Leo Lefrancois, a pioneer in this field who recently passed away. A major proportion of these mucosal T cells are memory T cells, now recognized as a major constituent of memory T cells referred to as tissue-resident memory T cells. Unlike central and effector memory T cell subsets, tissue-resident memory T cells exhibit tissue specificity with minimal systemic migration. Nonetheless, tissue-resident memory T cells share a similar origin and display some overlapping phenotypes with their other memory T cell counterparts. Articles in this issue will describe the different types of memory T cells residing in mucosal tissues, their origins and functions as well as how they vary among discrete mucosal sites. Manuscripts will consider the unique physiological environments and cellular constituents which facilitate tissue residency while preserving tissue function. Additionally, there will be descriptions of the various mechanisms responsible for the migration and segregation of tissue resident memory CD8 T cells from |

the peripheral T cell pool. Although the mechanisms facilitating the sequestration of tissue-resident memory T cells within a respective tissue has not well characterized, various theories will also be discussed. Lastly, how these T cells contribute to immunity to pathogens, cancer, and autoimmunity and could be modified through vaccination or therapeutic intervention will be described. As mucosal tissues are the major portals of pathogen entry and frequent transformation, the activities and persistence of tissue resident memory T cells is crucial for mediating protection at these sites.

2. Record Nr. UNIORUON00434939

Autore ARAGON, Louis

Titolo Aurélien : roman / Aragon

Pubbl/distr/stampa Paris, : Gallimard, 1944

Descrizione fisica 704 p. ; 17 cm.

Disciplina 840.91

Lingua di pubblicazione Francese

Formato Materiale a stampa

Livello bibliografico Monografia

| 3. Record Nr. | UNINA9910814269703321 |
| Autore | Tynianov IU. N (IUrii Nikolaevich), <1894-1943, > |
| Titolo | Permanent evolution : selected essays on literature, theory and film // Yuri Tynianov ; translated and edited by Ainsley Morse and Philip Redko |
| Pubbl/distr/stampa | Boston : , : Academic Studies Press, , 2019 |
| ISBN | 1-64469-273-2 1-64469-063-2 |
| Descrizione fisica | 1 online resource (378 pages) |
| Collana | Cultural syllabus |
| Altri autori (Persone) | TynianovIU. N <1894-1943.> (IUrii Nikolaevich) |
| Disciplina | 891.709/0042 |
| Soggetti | Russian literature - History and criticism - Theory, etc Motion pictures - History |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Includes selected works from the author's "Arkhaisty i novatory" and "Poetika, istoriia literatury, kino". |
| Nota di bibliografia | Includes bibliographical references and index. |
| Nota di contenuto | Theory through history - then. Dostoevsky and Gogol (toward a theory of parody) ; Tyutchev and Heine ; The ode as an oratorical genre ; On the composition of Eugene Onegin -- Theory through history - now. Literary fact ; Interlude ; On Khlebnikov ; Film - word - music -- Evolutions in literature and film. On the screenplay ; On plot and fabula in film ; The foundations of film ; On literary evolution -- Epilogue. Problems of the study of literature and language (with Roman Jakobson) ; On FEX ; On Mayakovsky: In memory of the poet ; On parody. |
| Sommario/riassunto | "Yuri Tynianov was a key figure of Russian Formalism, an intellectual movement in early 20th century Russia that also included Viktor Shklovsky and Roman Jakobson. Tynianov developed a groundbreaking conceptualization of literature as a system within-and in constant interaction with-other cultural and social systems. His essays on Russian literary classics, like Pushkin's Eugene Onegin and works by Dostoevsky and Gogol, as well as on the emerging art form of filmmaking, provide insight into the ways art and literature evolve and adapt new forms of expression. Although Tynianov was first a scholar of Russian literature, his ideas transcend the boundaries of any one genre or national tradition. Permanent Evolution gathers together for the first time Tynianov's seminal articles on literary theory and film, including several articles never before translated into English"-- |
