Sommario/riassunto	Kniha je pokusem alespon castecne odkryt specifika chirurgicke profese. Prolina se v ni pohled chirurgu, s nimiz autor vedl rozhovory, s pohledem zvenci. Je to pohled pedagoga, mezioborove orientovaneho. Kniha je vyuzitelna v priprave na lekarskou profesi a je predpoklad, ze oslovi sirsi odbornou i laickou verejnost. The book attempts to unveil at least in part the specifics of the surgical profession. It combines the reflections of surgeons, with whom the author conducted reflective interviews, with an outsider's perspective. Being written by an educator with a wide interdisciplinary awareness, the book is likely to enlighten not only those who strive to become surgeons themselves but also readers interested in learning about other (helping) professions.
