Titolo	Rabies virus at the beginning of 21st century / / Sergey Tkachev, editor
Pubbl/distr/stampa	London : , : IntechOpen, , [2022]
Descrizione fisica	1 online resource (98 pages)
Disciplina	616.953
Soggetti	Rabies Rabies - Diagnosis
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Despite significant worldwide progress in fighting rabies, a zoonotic viral disease, it remains an important public health concern, causing approximately 50,000 human cases per year. This book summarizes current knowledge regarding rabies, the prevalence and genetic diversity of the rabies virus, and modern approaches to rabies diagnosis, prevention, and treatment. It is a useful resource for scientists, doctors, and students.
