

1. Record Nr.	UNINA9910688309203321
Autore	Janzing Dominik
Titolo	Computer science approach to quantum control / / Dominik Janzing
Pubbl/distr/stampa	Karlsruhe : , : Univ.-Verl. Karlsruhe, , 2006
Descrizione fisica	1 online resource (139 pages)
Disciplina	530.12
Soggetti	Quantum theory
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This work considers several hypothetical control processes on the nanoscopic level and show their analogy to computation processes. It shows that measuring certain types of quantum observables is such a complex task that every instrument that is able to perform it would necessarily be an extremely powerful computer.
