

1. Record Nr.	UNINA9910688325203321
Titolo	Pathology : From Classics to Innovations // edited by Ilze Strumfa and Guntis Bahs
Pubbl/distr/stampa	London, United Kingdom : , : IntechOpen, , 2021
Descrizione fisica	1 online resource (212 pages) : illustrations
Disciplina	616.07
Soggetti	Pathology - Study and teaching
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>Pathology is a diagnostic medical specialty dealing with the evaluation of tissues and body fluids to diagnose disease and predict prognosis or response to treatment. In particular, a biopsy is the "gold standard" in the diagnostics of certain diseases, especially tumours. Pathology - From Classics to Innovations is a collection of original peer-reviewed studies and review articles by a truly global scientific team on the recent advances in pathology. Chapters discuss classic surgical pathology and the application of microscopic tissue studies in anatomic research, immunohistochemistry, molecular pathology, liquid biopsy, and digital pathology.</p>
