

1. Record Nr.	UNINA9910688338403321
Titolo	Ginger cultivation and its antimicrobial and pharmacological potentials // Haiping Wang, editor
Pubbl/distr/stampa	London : , : IntechOpen, , [2020]
Descrizione fisica	1 online resource (162 pages)
Disciplina	615.32439
Soggetti	Ginger - Therapeutic use Ginger
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Ginger is well known as a spice and flavor. It has been a traditional medical plant in many cultures for thousands of years. To uncover the miraculous plant, this book not only gives you the plant's origins, where the plant is grown now, but also provides current studies on its utilization, cultivation, breeding, and therapeutic benefits.
