

1. Record Nr.	UNINA9910688358103321
Autore	Scerrati Alba
Titolo	Cerebral Circulation : Updates on Models, Diagnostics and Treatments of Related Diseases // Alba Scerrati, Luca Ricciardi, Flavia Dones
Pubbl/distr/stampa	London : , : IntechOpen, , 2022
Descrizione fisica	1 online resource (120 pages)
Disciplina	616.8
Soggetti	Clinical neuropsychology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>Diagnostics and diseases related to the cerebrovascular system are constantly evolving and updating. 3D augmented reality or quantification of cerebral perfusion are becoming important diagnostic tools in daily practice and the role of the cerebral venous system is being constantly revised considering new theories such as that of "the glymphatic system." This book provides updates on models, diagnosis, and treatment of diseases of the cerebrovascular system.</p>
