

1. Record Nr.	UNINA9910688358203321
Titolo	Glomerulonephritis and Nephrotic Syndrome // edited by Thomas Rath
Pubbl/distr/stampa	London : , : IntechOpen, , 2019 ©2019
Descrizione fisica	1 online resource (xii, 124 pages) : illustrations
Disciplina	616.612
Soggetti	Glomerulonephritis Nephrotic syndrome Ophthalmology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	Chronic kidney disease is a worldwide disease affecting up to 4% of the population. In many cases, glomerulonephritis is the underlying disease leading to kidney failure. One hallmark of glomerulonephritis is proteinuria, which may in its most severe form lead to nephrotic syndrome. In seven chapters, this book puts light on different aspects related to the pathophysiology and clinical aspects of glomerulonephritis. In addition, chapters dealing with the importance of biomarkers in patients with glomerulonephritis will be beneficial for the open-minded reader. Nevertheless, new insights in renal rehabilitation in patients with chronic kidney disease will be provided.
