

1. Record Nr.	UNINA9910688358703321
Autore	El-Esawi Mohamed Ahmed
Titolo	Maize Genetic Resources : Breeding Strategies and Recent Advances // Mohamed Ahmed El-Esawi
Pubbl/distr/stampa	London : , : IntechOpen, , 2022
Descrizione fisica	1 online resource (180 pages)
Disciplina	633.152
Soggetti	Corn - Breeding
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Maize is one of the most economically important food crops worldwide. It is used for livestock feeds and human nutrition. Recent strategies have been adopted for improving maize crops. This book brings together recent advances, breeding strategies, and applications in the biological control, breeding, and genetic improvement of maize genetic resources. It also provides new insights and sheds light on new perspectives and future research work that have been carried out for further improvement of maize crops. This book is a useful resource for students, researchers, and scientists.
