Descrizione fisica	1 online resource (68 pages)
Disciplina	617.559
Soggetti	Hernia
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The Art and Science of Abdominal Hernia encompasses a broad range of topics regarding abdominal wall hernia. Minute technical details are largely avoided, the main focus being on diagnosis and common surgical approaches. Chapters address clinical evaluation and diagnosis, different types of hernias including inguinal, femoral, and umbilical hernias, and biological mechanisms of inguinal pain and chronification.
