

1. Record Nr.	UNINA9910688374203321
Titolo	Mind and Matter : Challenges and Opportunities in Cognitive Semiotics and Aesthetics / / edited by Asun Lopez-Varela Azcarate
Pubbl/distr/stampa	London : , : IntechOpen, , 2022 ©2022
Descrizione fisica	1 online resource (196 pages)
Disciplina	302.2019
Soggetti	Semiotics - Psychological aspects
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	Do brains create material reality in thinking processes or is it the other way around, with things shaping the mind? Where is the location of meaning-making? How do neural networks become established by means of multimodal pattern replications, and how are they involved in conceptualization? How are resonance textures within cellular entities extended in the body and the mind by means of mirroring processes? In which ways do they correlate to consciousness and self-consciousness? Is it possible to explain out-of-awareness unconscious processes? What holds together the relationship between experiential reality, bodily processes like memory, reason, or imagination, and sign-systems and simulation structures like metaphor and metonymy visible in human language? This volume attempts to answer some of these questions.

2. Record Nr.	UNINA9910819547003321
Titolo	Sustainable brownfield regeneration : liveable places from problem spaces // edited by Tim Dixon ... [et al.]

Soggetti	Soil remediation Brownfields Reclamation of land Sustainable buildings Building sites
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Sustainable Brownfield Regeneration; Contents; Notes on the Contributors; Acknowledgements; Foreword; Part 1 Introduction; 1 Introduction; 1.1 Background; 1.2 Aims and objectives; 1.3 Structure of the book; 2 Researching Sustainability: The Possibilities and Limitations of Cross-Cutting Research in the Urban Environment; 2.1 Introduction; 2.2 Intellectual disciplines, interdisciplinarity and the construction of knowledge; 2.3 The rise and rise of the sustainability agenda; 2.4 The EPSRC's Sustainable Urban Environments programme and the emergence of the SUBR:IM consortium 2.5 Conclusions: SUBR:IM and new ways of workingPart 2 Regeneration; 3 Democracy, Trust and Risk Related to Contaminated Sites in the UK; 3.1 Introduction; 3.2 Contaminated land in the UK: context and policy;

3.3 Democracy, trust and risk in environmental governance; 3.4 Case studies; 3.5 Conclusions; 4 Actor Networks: The Brownfield Merry-Go-Round; 4.1 Introduction; 4.2 Actors and their roles; 4.3 Networks and their construction; 4.4 Network processes in brownfield regeneration; 4.5 Conclusions

5 Heroes or Villains? The Role of the UK Property Development Industry in Sustainable Urban Brownfield Regeneration 5.1 Introduction; 5.2 The nature and challenge of brownfield development; 5.3 The role of the UK property development industry in brownfield regeneration; 5.4 Survey and interview findings; 5.5 Learning from practice: Thames Gateway and Greater Manchester; 5.6 Towards best practice?; 5.7 A checklist for developers; 5.8 Conclusions; Acknowledgements; 5A.1 Appendix 1 National developer interviewees and questionnaire sample; 5A.2 Appendix 2 Details of case study interviews

6 Delivering Brownfield Regeneration: Sustainable Community-Building in London and Manchester 6.1 Introduction; 6.2 Building for the future: visions, practices and the delivery of sustainable urban regeneration; 6.3 Flagship urban brownfield regeneration in the UK: the redevelopment of Salford Quays and Paddington Basin; 6.4 Conclusions: lessons for urban development policy; Part 3 Remediation; 7 Greening Brownfield Land; 7.1 Introduction; 7.2 Background and context; 7.3 A sustainable process for greenspace; 7.4 Contamination; 7.5 Sustainable greenspace

7.6 The future of greenspace on brownfield land 7.7 Conclusions; 8 Novel Special-purpose Composts for Sustainable Remediation; 8.1 Introduction; 8.2 Materials characterisation; 8.3 Experimental design; 8.4 Heavy metals containment in soils; 8.5 Biomass; 8.6 Enhanced compost; 8.7 Magnetic resonance imaging; 8.8 Conclusions; 9 Robust Sustainable Technical Solutions; 9.1 Introduction; 9.2 Sustainability assessment of currently available remediation technologies in the UK; 9.3 Sustainability improvements to remediation techniques; 9.4 Conclusions

10 'The Creature Lurks Within?' Restoring Acid Tar Lagoons

Sommario/riassunto

Sustainable Brownfield Regeneration presents a comprehensive account of UK policies, processes and practices in brownfield regeneration and takes an integrated and theoretically-grounded approach to highlight best practice. Brownfield regeneration has become a major policy driver in developed countries. It is estimated that there are 64,000 hectares of brownfield land in England, much of which presents severe environmental challenges and lies alongside some of the most deprived communities in the country. Bringing such land back into active use has taken on a new urgency among policymakers
