	Autore	Campbell John Coert <1911->
	Titolo	American policy toward Communist Eastern Europe [[electronic resource]] : the choices ahead / / by John C. Campbell
	Pubbl/distr/stampa	Minneapolis, : University of Minnesota Press, [1965]
	ISBN	0-8166-5719-X
	Descrizione fisica	xi, 136 p. : map
	Disciplina	309.147
	Soggetti	Electronic books.
		United States Foreign relations Europe, Eastern
		Europe, Eastern Politics and government
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	"Originally prepared to serve as the basis for discussion at the Seventh Midwest Seminar on United States Foreign Policy, held May 13-16, 1964, at Wingspread, the Johnson Foundation National Conference Center at Racine, Wisconsin."
	Nota di bibliografia	Includes bibliographical footnotes and index.

2.	Record Nr.	UNINA9910688380403321
	Titolo	Computational Optimization Techniques and Applications / / edited by Muhammad Sarfraz and Samsul Ariffin Abdul Karim
	Pubbl/distr/stampa	London : , : IntechOpen, , 2021 ©2021
	Descrizione fisica	1 online resource (xiv, 244 pages) : illustrations
	Disciplina	519.6
	Soggetti	Constrained optimization
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Sommario/riassunto	Computational optimization is an active and important area of study, practice, and research today. It covers a wide range of applications in engineering, science, and industry. It provides solutions to a variety of real-life problems in the fields of health, business, government, military, politics, security, education, and many more. This book compiles original and innovative findings on all aspects of computational optimization. It presents various examples of optimization including cost, energy, profits, outputs, performance, and efficiency. It also discusses different types of optimization problems like nonlinearity, multimodality, discontinuity, and uncertainty. Over thirteen chapters, the book provides researchers, practitioners, academicians, military professionals, government officials, and other industry professionals with an in-depth discussion of the latest advances in the field.
