

1. Record Nr.	UNINA9910688409903321
Autore	Maier Claudia B
Titolo	Skill-mix innovation, effectiveness and implementation : improving primary and chronic care // edited by Claudia B. Maier [and three others] [[electronic resource]]
Pubbl/distr/stampa	Cambridge University Press, 2022 Cambridge : , : Cambridge University Press, , 2022
ISBN	1-009-03329-8 1-009-03349-2 1-009-03192-9
Descrizione fisica	1 online resource (xxvii, 380 pages) : digital, PDF file(s)
Collana	European Observatory on Health Systems and Policies series
Disciplina	362.1071
Soggetti	Public health personnel - Education Public health - Study and teaching
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Open Access. Title from publisher's bibliographic system (viewed on 07 Apr 2022).
Sommario/riassunto	What are skill-mix innovations and why are they relevant? This systemic analysis of health workforce skill-mix innovations provides an overview of the evidence and lessons for implementation across multiple countries. The authors focus on six core segments of health systems: health promotion and prevention, acute care, chronic care, long-term and palliative care, as well as access for vulnerable groups and people living in underserved areas. In addition, the book analyses the roles of educational systems, workforce planning and policy, and financing within individual countries' healthcare organisations from a cross-country perspective. Although implementing skill-mix changes may be prone to stakeholder opposition or other barriers, this book helps identify ways to steer the process. The authors ultimately determine what skill-mix innovations exist, who may benefit from the changes and how to implement these changes within health systems. This Open Access title is the sixth book in Cambridge's European Observatory on Health Systems and Policies series.
