

1. Record Nr.	UNINA9910688450203321
Titolo	Advances in cotton research // edited by Mahmood-ur-Rahman Ansari
Pubbl/distr/stampa	London, England : , : IntechOpen, , 2020
Descrizione fisica	1 online resource (84 pages)
Disciplina	633.51
Soggetti	Cotton - Biotechnology Cotton - Breeding
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Advances in Cotton Research is an interdisciplinary book dealing with diverse topics related to recent developments in cotton improvement. It discusses the latest research in the field of Bt cotton, abiotic stress, strategies to combat various abiotic stresses, the potential use of cotton biomass for bioenergy production as well as factors influencing cotton spinning. This book provides advanced knowledge for cotton breeders, researchers in related fields, students, life science researchers, and interested readers.
