

1. Record Nr.	UNINA9910688451103321
Titolo	Cell Interaction : Molecular and Immunological Basis for Disease Management // edited by Bhawana Singh
Pubbl/distr/stampa	London, United Kingdom : , : IntechOpen, , 2021
Descrizione fisica	1 online resource (228 pages)
Disciplina	362.1
Soggetti	Immunology Disease management
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This book discusses contemporary ideas on different molecular and immunological aspects of diseases. Different signaling mediators drive the production of messenger molecules that mediate their action, leading to the elicitation/suppression of immune responses. It provides a balanced approach to the study of different molecular phenomena that eventually drive infection outcomes and that can be manipulated for therapeutic benefits.
