

1. Record Nr.	UNINA9910688465303321
Titolo	Mining techniques : past, present and future / / edited by Abhay Soni
Pubbl/distr/stampa	London : , : IntechOpen, , [2021] ©2021
Desrizione fisica	1 online resource (176 pages) : illustrations
Disciplina	622
Soggetti	Mining engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	Mining techniques have evolved over time, culminating in the well-defined field of "mining science," which encompasses aspects such as engineering, chemistry, physics, technology, and management, among others. This book explains how mining techniques can be handled and improved further to make mining practices far more productive, safe, and eco-friendly. It is a useful resource for researchers, students, policy formulators, and decision-makers in different areas of mining and engineering.
