1. Record Nr. UNINA9910688492103321 Color Detection / / edited by Lingwen Zeng, Shi-Lin Cao Titolo Pubbl/distr/stampa London, England:,: IntechOpen,, 2020 Descrizione fisica 1 online resource (120 pages) Disciplina 535.6 Soggetti Color Lingua di pubblicazione Inglese **Formato** Materiale a stampa Livello bibliografico Monografia Chromogenic assays (color detection) result in colored reaction Sommario/riassunto products. By detecting the color change before and after the reaction, substance concentration can be determined by the naked eye, light microscopes, or spectrophotometers. Color detection exhibits great potential in the field of quality monitoring, chemical technology, nanophysics, and clinical medicine, because of its rapid, direct, specific, convenient, and sensitive features. The intention of this book is to provide readers with a comprehensive overview of the principles, features, and applications of color detection.
