Sommario/riassunto	Accidents are inevitable in our lives and they affect us in many aspects ranging from economical to social, health to legal. While it is not possible to remove accidents from our lives completely, it is possible to develop new techniques or set new standards or prepare contingency plans to reduce their possibility of happening or to alleviate their consequences. This book, aiming to enlighten our ways to prevent accidents, is a compilation of articles authored by reputable international academicians from several disciplines such as maritime studies, defense technologies, emergency management, and psychiatry and behavioral medicine.
