

1. Record Nr.	UNINA9910688583903321
Titolo	Celiac disease // edited by Jianyuan Chai
Pubbl/distr/stampa	London : , : IntechOpen, , 2021
Descrizione fisica	1 online resource (92 pages)
Disciplina	616.399
Soggetti	Celiac disease
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Celiac disease is a common autoimmune disorder triggered by eating gluten that affects at least 1% of the world's population. Despite many years of effort, its pathogenesis is still not understood completely. This book discusses several important aspects of celiac disease, including its primary contributor, the DQ2 gene. It also examines dysfunctional immune checkpoints, causes and treatments of refractory celiac disease, and the status of the gluten-free food market.
