Sommario/riassunto	DoD has charted a new course to improve the way in which it provides weapon systems for its forces -- the use of Integrated Process and Product Develop. concepts and the use of empowered, multifunctional teams, called Integrated Product Teams. The earliest DoD program under these concepts is the Air Force F-22 Advanced Tactical Fighter develop. program. This book describes the principles and the concepts of the F-22 program and describes how the F-22 program implements this theory. Provides explanations of how the F-22 program operates and shows practical examples of how the theoretical concepts can be applied in the real world. Illus.
