Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"The Corps of Engineers has attempted to better define and understand national water resources issues through research and listening sessions that were held during 2000. The purpose of the listening sessions was to provide citizens an opportunity to voice concerns about pressing water resources needs, problems, and opportunities that impact their lives, communities and future sustainability ... and what they believe the federal role should be."
