Note generali	Title from title screen (viewed on Feb. 6, 2003).
Sommario/riassunto	The U.S. Federal Trade Commission (FTC) presents information in PDF format for consumers on the "Made in the USA" labeling on products. According to the FTC, the labeling means that all or virtually all of the product was made in America. Except for automobiles and textile and wool products, it is the choice of the manufacturer or advertiser to say whether or not a product is domestic.
