Note generali	"Prepared in cooperation with U.S. Department of the Army, Corps of Engineers." "Water Resource Division"--Cover. Title from title screen (viewed Jan. 7, 2003).
Nota di bibliografia	Includes bibliographical references (pages 112-116).
Sommario/riassunto	This on-again, off-again canal is of historical interest. Its construction generated over 85 government reports, including Congressional ones, from 1930-92; on protecting our ships from submarines in WW II, through environmental and engineering concerns over the damage such a canal might do to Florida's groundwater.
