Autore	Du Moulin Lewis <1606-1680.>
Titolo	Of the right of churches [[electronic resource]] : and of the magistrates power over them. Wherein is further made out 1. the nullity and vanity of ecclesiastical power (of ex-communicating, deposing, and making lawes) independent from the power of magistracy. 2. The absurdity of the distinctions of power and lawes into ecclesiastical and civil, spirituall and temporall. 3. That these distinctions have introduced the mystery of iniquity into the world, and alwayes disunited the minds and affections of Christians and brethren. 4. That those reformers who have stood for a jurisdiction distinct from that of the magistrate, have unawares strengthened [sic] the mystery of iniquity. // By Lewis du Moulin Professor of History in the Vniversity of Oxford
