

1. Record Nr.	UNINA9910454429303321
Autore	Gries Stefan Thomas <1970->
Titolo	Multifactorial analysis in corpus linguistics [[electronic resource] ] : a study of particle placement / / Stefan Thomas Gries
Pubbl/distr/stampa	New York, : Continuum, 2003
ISBN	1-282-01397-1 9786612013973 1-4411-2208-7
Descrizione fisica	1 online resource (239 p.)
Collana	Open linguistics series
Disciplina	425
Soggetti	English language - Particles English language - Word order Computational linguistics Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Originally presented as the author's thesis (doctoral)--University of Hamburg, 2000.
Nota di bibliografia	Includes bibliographical references (p. [211]-221) and indexes.
Nota di contenuto	Contents; List of figures; List of tables; Preface; List of abbreviations; 1 Introduction; 2 Review of literature; 3 Objectives of this study; 4 Key notions and hypotheses; 5 The data; 6 Results and discussion; 7 General discussion; 8 The activation of constructions; 9 Conclusion and outlook; 10 Appendices; 11 References; Subject index; Author index
Sommario/riassunto	This book presents a new analysis of the word-order alternation of English transitive phrasal verbs (aka Particle Movement) from a cognitive-functional and psycholinguistic perspective. Its main objective, however, is a methodological one, namely to demonstrate the superiority of corpus-based, multifactorial and probabilistic approaches towards grammatical phenomena over traditional analyses based on acceptability judgements and minimal pair tests.

2. Record Nr.	UNINA9910692099503321
Titolo	Technology transfer [[electronic resource] ] : agencies' rights to federally sponsored biomedical inventions : report to congressional committees / / United States General Accounting Office

Nota di contenuto	Frontmatter -- Table of Contents -- Acknowledgements -- Sigla and Abbreviations -- Chapter One: Job 28 as Poetry -- Chapter Two: Translation and Vocalized Text -- Chapter Three: A Reading of Job 28 -- Chapter Four: A Philological and Textual Study of Job 28 -- Chapter Five: The "Structured Commentary" in Job 28:15-19 -- Chapter Six: Conclusions -- Backmatter
Sommario/riassunto	Efforts at interpreting Joban poetry have often been divided between philological and literary critics. This study brings these two critical modes together to offer an account of how Job 28 achieves meaning. The heart of the study consists of two major sections. The first is a reading of the poem with special attention to the conceptual background of its metaphors. Rather than a poetic account of mining technology, Job 28 is properly understood against the heroic deeds of ancient Mesopotamian kings described in Sumerian and Akkadian royal narratives, especially the Gilgamesh epic. The second major section is a thorough philological and textual commentary in which comparative philological and text-critical methods are complemented by an aesthetic rationale for restoring the text of the poem as a work of art. The study reveals a multileveled and image-driven masterpiece whose complexity impacts how one reads Job 28 as poetry and theology.
