Sommario/riassunto	This publication by the International Atomic Energy Agency (IAEA) provides an authoritative account of the Joint Convention on the Safety of Spent Fuel Management and on the Safety of Radioactive Waste Management. It outlines the legal framework established to ensure the safe handling, disposal, and management of spent nuclear fuel and radioactive waste. The book details the negotiation, adoption, and implementation of the Convention, including its objectives, provisions, and commitments by Member States. It also includes information on the Diplomatic Conference held in 1997 and the subsequent entry into force of the Convention in 2001. The publication is intended for policymakers, legal experts, scientists, and stakeholders in nuclear energy and environmental safety, promoting international cooperation and adherence to safety standards in nuclear waste management.
