Epilogue -- The Eighties: Decade of Handicapped People.

---

Sommario/riassunto

The Medicolegal Library is the first and only series of its kind. Its importance is self-evident. During the last decade, science, especially medical practice, has become an increasingly complex undertaking. Recent dramatic developments in medicine have given rise to both theoretical controversies and practical dilemmas. Society is struggling with new scientific, economic, cultural, and legal issues. The establishment of a series such as this appears vital for lawyers and physicians, for sociologists and psychologists, and for the public at large. The editorial board of the Medicolegal Library consists of distinguished scientists from many different countries and disciplines. Judge Amnon Carmi acts as principal series editor. Judge Carmi is the author of many books and articles on medical law, and is Editor-in-Chief of *Medicine and Law: An International Journal*. The Medicolegal Library will issue two books each year. The first four books, soon to be published, will deal with child abuse, euthanasia, disability, and nursing, laws and ethics.
