

1. Record Nr.	UNINA9910693832203321
Titolo	Standard technical specifications [[electronic resource]] : Babcock and Wilcox plants
Pubbl/distr/stampa	Washington, DC : , : Division of Inspection Program Management, Office of Nuclear Reactor Regulation, U.S. Nuclear Regulatory Commission, , [2004]
Edizione	[Rev. 3.]
Descrizione fisica	1 online resource (2 volumes)
Soggetti	Nuclear power plants - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed on July 15, 2004). "Date published: June 2004." "Manuscript completed: March 2004." Paper version available for sale by the Supt. Of Docs., U.S. G.P.O. "NUREG-1430."
Nota di contenuto	v. 1. Specifications -- v. 2. Bases.

2. Record Nr.	UNINA9910438050703321
Titolo	Ontology, epistemology, and teleology for modeling and simulation : philosophical foundations for intelligent M&S applications / / Andreas Tolk (eds.)
Pubbl/distr/stampa	Berlin ; ; New York, : Springer, c2013
ISBN	9786613943330 9781283630887 1283630885 9783642311406 3642311407
Edizione	[1st ed. 2013.]
Descrizione fisica	1 online resource (378 p.)
Collana	Intelligent systems reference library, , 1868-4394 ; ; 44
Altri autori (Persone)	TolkAndreas
Disciplina	003
Soggetti	Simulation methods - Philosophy Data structures (Computer science)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	From the Contents: Truth, Trust, and Turing – Constraints for Modeling and Simulation -- Guidelines for Developing Ontological Architectures in Modeling and Simulation -- Ontologies in Modeling and Simulation: An Epistemological Perspective -- Ontological Implications of Modeling and Simulation in Postmodernity -- Models as Partial Explanations -- Theory Reconstruction of Several Versions of Modern Organization Theories -- Cutting Back Models and Simulations -- Philosophical Aspects of Modeling and Simulation -- Philosophical and Theoretic Underpinnings of Simulation Visualization Rhetoric and their Practical Implications.
Sommario/riassunto	In this book, internationally recognized experts in philosophy of science, computer science, and modeling and simulation are contributing to the discussion on how ontology, epistemology, and teleology will contribute to enable the next generation of intelligent modeling and simulation applications. It is well understood that a simulation can provide the technical means to display the behavior of a system over time, including following observed trends to predict future

possible states, but how reliable and trustworthy are such predictions? The questions about what we can know (ontology), how we gain new knowledge (epistemology), and what we do with this knowledge (teleology) are therefore illuminated from these very different perspectives, as each experts uses a different facet to look at these challenges. The result of bringing these perspectives into one book is a challenging compendium that gives room for a spectrum of challenges: from general philosophy questions, such as can we use modeling and simulation and other computational means at all to discover new knowledge, down to computational methods to improve semantic interoperability between systems or methods addressing how to apply the recent insights of service oriented approaches to support distributed artificial intelligence. As such, this book has been compiled as an entry point to new domains for students, scholars, and practitioners and to raise the curiosity in them to learn more to fully address the topics of ontology, epistemology, and teleology from philosophical, computational, and conceptual viewpoints.

3. Record Nr.	UNINA9911026176403321
Autore	IAEA
Titolo	Experiences of the Development, Review and Communication of Safety Cases and Safety Assessments for near Surface Disposal of Radioactive Waste
Pubbl/distr/stampa	Vienna : , : International Atomic Energy Agency, , 2024 ©2024
ISBN	9789201024244 920102424X
Edizione	[1st ed.]
Descrizione fisica	1 online resource (151 pages)
Collana	IAEA TECDOC Series No Series ; ; v.2041
Soggetti	Cryptography Python (Computer program language)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia

Sommario/riassunto

The text appears to be a technical or educational resource related to cryptography and computer security, particularly focusing on the use of the AES algorithm. It suggests a practical or instructional purpose, likely aimed at an audience with an interest or need in understanding cryptographic algorithms and their implementations. The reference to PyCryptodome indicates a focus on Python libraries used for cryptographic purposes, suggesting that the book might include technical guides or programming examples.

Contents; Acknowledgments; 1 What Does a Mother Do?; 2 A Secure Connection; 3 Secure Connections, the Extended Family System, and the Socio-Cultural Construction of Attachment Theory; 4 Attachment and Separation-Individuation; 5 Mother-Infant Attachment; 6 Parent-Child Treatment; 7 The Use of Video in Infant Research and Clinical Practice; 8 Childhood Losses, Adult Memories; 9 When Mother Isn't There; 10 Before Self and Object Constancy; References; Index; About the Editor and Contributors

Sommario/riassunto

The Mother and Her Child: Clinical Aspects of Attachment, Separation, and Loss, edited by Salman Akhtar focuses upon the formation of an

individual's self in the crucible of the early mother-child relationship. Akhtar brings together contributions from distinguished psychoanalysts and child observational researchers to explore the nuances of mothering and the child's tie to the mother.
