

1. Record Nr.	UNINA9910693832403321
Autore	Cotrell J
Titolo	Modeling the feasibility of using fuel cells and hydrogen internal combustion engines in remote renewable energy systems [[electronic resource] /] / J. Cotrell, W. Pratt
Pubbl/distr/stampa	Golden, Colo. : , : National Renewable Energy Laboratory, , [2003]
Collana	NREL/TP ; ; 500-34648
Altri autori (Persone)	PrattW
Soggetti	Remote area power supply systems - Technological innovations Fuel cells Hybrid power systems Wind turbines Internal combustion engines
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed on July 7, 2004).
