| Record Nr. | UNINA9910695285703321 |
| Autore | Jansen Wayne A |
| Titolo | Guidelines on PDA forensics [[electronic resource]] : recommendations of the National Institute of Standards and Technology / / Wayne Jansen, Rick Ayers |
| Pubbl/distr/stampa | Gaithersburg, MD : , : Computer Security Division, Information Technology Laboratory, , [2004] |
| Descrizione fisica | viii, 59 pages : digital, PDF file |
| Collana | NIST special publication ; ; 800-72. Computer security |
| Altri autori (Persone) | AyersRick |
| Soggetti | Computer security - Standards - United States
Computer crimes - Investigation |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | Title from title screen (viewed on Nov. 19, 2004).
"November 2004." |
| Nota di bibliografia | Includes bibliographical references. |
| Sommario/riassunto | Personal Digital Assistants (PDAs) are a relatively recent phenomenon, not usually covered in classical computer forensics. This guide attempts to bridge that gap by providing an in-depth look into PDAs and explaining the technologies involved and their relationship to forensic procedures. It covers three families of devices -- Pocket PC, Palm OS, and Linux-based PDAs -- and the characteristics of their associated operating system. This guide also discusses procedures for the preservation, acquisition, examination, analysis, and reporting of digital information present on PDAs, as well as available forensic tools. |
