

1. Record Nr.	UNINA9910695365003321
Autore	Collins William Edward <1932->
Titolo	A milestone of aeromedical research contributions to civil aviation safety [[electronic resource]] : the 1000th report in the CARI/OAM series : final report / / William E. Collins, Katherine Wade
Pubbl/distr/stampa	Washington, DC : , : U.S. Dept. of Transportation, Federal Aviation Administration, Office of Aerospace Medicine, , [2005]
Descrizione fisica	v, 74, 30 pages : digital, PDF file
Altri autori (Persone)	WadeKatherine
Soggetti	Aeronautics - Safety measures - Research Space medicine - Research Aerospace Medicine - history Aviation - history History, 20th Century Technical Report United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from PDF t.p. (viewed May 30, 2006). "March 2005." "DOT/FAA/AM-05/3."
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	This historical, largely photographic retrospective is presented in recognition of the 1000th published report emanating from the FAA aeromedical research center officially established as the Civil Aeromedical Research Institute (CARI) in August 1960. The publications include 57 CARI reports (1961-1963), 1 CARI technical publication (1963), and 942 reports (1964-present) under the aegis of the (now) Office of Aerospace Medicine (OAM). The retrospective includes an historical section on the early development of civil aeromedical research. Additional, theme-related sections provide an indication of some of the varied research contributions and safety achievements of the Institute and cite some of the many individuals who contributed to

the Institute's accomplishments.
