

1. Record Nr.	UNINA9910695757703321
Autore	Verrill S. P
Titolo	JMFA 2--a graphically interactive Java program that fits microfibril angle x-ray diffraction data [[electronic resource] /] / Steve P. Verrill, David E. Kretschmann, Victoria L. Herian
Pubbl/distr/stampa	Madison, WI : , : U.S. Dept. of Agriculture, Forest Service, Forest Products Laboratory, , [2006]
Descrizione fisica	70 pages : digital, PDF file
Collana	Research paper FPL-RP ; ; 635
Altri autori (Persone)	KretschmannDavid E HerianVictoria L
Soggetti	Wood - Quality - Computer simulation Wood - Mechanical properties Microfibrils X-rays - Diffraction
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed on Mar. 29, 2007). "July 2006."
Nota di bibliografia	Includes bibliographical references (pages 10-11).
Sommario/riassunto	X-ray diffraction techniques have the potential to decrease the time required to determine microfibril angles dramatically. In this paper, we discuss the latest version of a curve-fitting toll that permits us to reduce the time required to evaluate MFA X-ray diffraction patterns. Further, because this tool reflects the underlying physics more accurately than existing tools, we expect it to yield more accurate estimates of MFA.
