

1. Record Nr.	UNINA9910695921503321
Autore	Schmidt Kevin Michael <1966->
Titolo	Preliminary surficial geologic map of the Mesquite Lake 30 X 60 quadrangle, California and Nevada [[electronic resource] /] / by Kevin M. Schmidt and Matthew McMackin ; Department of the Interior, U.S. Geological Survey
Pubbl/distr/stampa	Menlo Park, Calif. : , : U.S. Geological Survey, , 2006
Edizione	[Version 1.0.]
Descrizione fisica	1 electronic map : HTML, digital, PDF file
Collana	U.S. Geological Survey open-file report ; ; 2006-1035
Altri autori (Persone)	McMackinMatthew
Soggetti	Geology, Structural - California - Mesquite Lake Geology, Structural - Nevada Maps.
Lingua di pubblicazione	Inglese
Formato	Materiale cartografico a stampa
Livello bibliografico	Monografia
Note generali	<p>"Uses of this digital geologic map should not violate the spatial resolution of the data. Although the digital form of the data removes the constraint imposed by the scale of a paper map, the detail and accuracy inherent in map scale are also present in the digital data. The fact that this database was edited at a scale of 1:100,000 means that higher resolution information is not present in the dataset. Plotting at scales larger than 1:100,000 will not yield greater real detail, although it may reveal fine-scale irregularities below the intended resolution of the database. Similarly, where this database is used in combination with other data of higher resolution, the resolution of the combined output will be limited by the lower resolution of these data ... the size of the map is 33 by 63 inches [i.e., 84 x 160 cm.] when printed at the map scale"--Metadata file.</p> <p>Title from HTML index page (viewed on June 7, 2006).</p>
