Note generali	Title from title screen (viewed on Sept. 10, 2007). "September 2007." Paper version available from: U.S. Govt. Accountability Office, 441 G St., NW, Rm. LM, Washington, D.C. 20548. "GAO-07-1094."
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	Rural areas generally lack adequate funds for constructing and upgrading water supply and wastewater treatment facilities. As a result, they typically rely on federal grants and loans, primarily from the Rural Utilities Service (RUS), Economic Development Administration (EDA), Bureau of Reclamation (Reclamation), and the U.S. Army Corps of Engineers (Corps), to fund these projects. Concern has been raised about potential overlap between the projects these agencies fund. For fiscal years 2004 through 2006 GAO determined the (1) amount of funding these agencies obligated for rural water projects and (2) extent to which each agency's eligibility criteria and the projects they fund differed.
