

1. Record Nr.	UNINA9910696404303321
Titolo	Presentation showing results of a hydrogeochemical investigation of the Standard Mine vicinity, upper Elk Creek basin, Colorado [[electronic resource] /] / by Andrew H. Manning ... [and others] ; prepared in cooperation with the U.S. Environmental Protection Agency
Pubbl/distr/stampa	Reston, Va. : , : U.S. Geological Survey, , 2008
Edizione	[Version 1.0.]
Descrizione fisica	1 electronic text 23 pages : digital, PDF file
Collana	Open-file report ; ; 2008-1012
Altri autori (Persone)	ManningAndrew Harvey
Soggetti	Geochemistry - Colorado - Standard Mine (Gunnison County) Hydrology - Colorado - Standard Mine (Gunnison County) Acid mine drainage - Colorado - Standard Mine (Gunnison County) Water - Pollution - Colorado - Standard Mine (Gunnison County) Standard Mine (Gunnison County, Colo.) Environmental conditions
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from PDF title screen (viewed on Feb. 25, 2008).
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	This open-file report consists of 18 slides from a presentation given in Crested Butte, Colorado on December 13, 2007 to the Standard Mine Advisory Group. The presentation was paired with another presentation given by the Colorado Division of Reclamation, Mining, and Safety on the physical features and geology of the Standard Mine. The presentation in this Open-File Report summarizes the results and conclusions of a hydrogeochemical investigation of the Standard Mine performed by the U.S. Geological Survey (Manning and others, in press).
