

1. Record Nr.	UNINA9910696450703321
Autore	Kass-Bartelmes Barbara L
Titolo	Preventing disability in the elderly with chronic disease [[electronic resource]]
Pubbl/distr/stampa	Rockville, Md. : , : Agency for Healthcare Research and Quality, , [2002]
Descrizione fisica	7 pages : digital, PDF file
Collana	Research in action ; ; issue #3 AHRQ pub. ; ; no. 02-0018
Soggetti	Older people - Health and hygiene Older people - Diseases Disability awareness - United States Chronic Disease - rehabilitation Aged
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from PDF caption (viewed Mar. 7, 2008). "April 2002." Written by Barbara L. Kass-Bartelmes.
Nota di bibliografia	Includes bibliographical references.
Sommario/riassunto	Research sponsored by the Agency for Healthcare Research and Quality led to development of a patient self-management program that can help prevent or delay disability even in patients with arthritis, heart disease, or hypertension. Patients are taught how to better manage their symptoms, adhere to medication regimens, and maintain functional ability. AHRQ-funded research shows that health education and lifestyle changes can reduce the negative consequences of chronic disease.
