

1. Record Nr.	UNISA996518468003316
Titolo	E-Learning, e-Education, and Online Training : 8th EAI International Conference, ELEOT 2022, Harbin, China, July 9-10, 2022, Proceedings, Part I // Weina Fu and Guanglu Sun (editors)
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2022] ©2022
ISBN	3-031-21161-8
Edizione	[First edition.]
Descrizione fisica	1 online resource (799 pages)
Collana	Lecture Notes of the Institute for Computer Sciences, Social Informatics and Telecommunications Engineering Series ; ; Volume 453
Disciplina	371.33
Soggetti	Educational technology Internet in higher education
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	IT promoted Teaching Platforms and Systems -- Design of Online Teaching Auxiliary Platform for Physical Education Professional and Technical Courses -- Design of Online Art Appreciation Course Teaching System Based on Interactive Scene -- An Empirical Study on the English Teachers' Informatization Ability in Yunnan Ethnic Minority Area -- Design of Aerobics Network Teaching System Based on Artificial Intelligence -- Design of Online Open Wushu Sanda Teaching Platform Based on Hybrid Reality Technology -- Design of Intelligent Financial Education Assistant System Based on Blockchai -- Enterprise Strategic Financing Risk Management Auxiliary Education System Based+ on Data Mining -- Leg Posture Correction System for Physical Education Students Based on Multimodal Information Processing -- Online Interactive Teaching System of Sanda Course Based on P2P Network -- Intelligent Computer Aided Instruction System Based on Cloud Computing -- Construction of Online Ideological and Political Education Platform Based on Artificial Intelligence Technology -- Intelligent Interactive Mobile Teaching Platform in Colleges and Universities Based on Artificial Intelligence Network -- Construction of Multimedia Online Education Platform Based on Fuzzy Neural Network -- Design and Implementation of Mobile Intelligent Education System

Based on Cloud Architecture -- Design of Online Preschool Education
Decision Support System Based on Data Mining -- Construction of
Online Education Model of Marketing Specialty Based on Cloud
Computing -- Design of Tibetan Vocabulary Online Learning System
Based on Multi-Terminal Integration -- Design of online teaching
system for theory of Variable Order Fractional gradient descent method
-- Research on Collaborative Learning Behavior Recognition of Online
Education Platform Based on Data Mining -- Design of Online Education
System for Ideological and Political Courses of Traditional Chinese
Medicine Based on MOOC Model -- Assistant Teaching System of
Human Resource Management Course Based on Data Mining -- Design
of Virtual Experiment Online Teaching System for Economics and
Management in Colleges and Universities Based on Virtualization
Technology -- Design of Online Teaching System Based on Clustering
Algorithm -- Design of Distance Teaching System for Textile Pattern
Design Course Based on Online and Offline Integration -- Online
Training System of Distribution Network Equipment Operation and
Maintenance Security Based on Cloud Model -- Design of Intelligent
Education Management Information System in Colleges and Universities
from The Perspective of Big Data -- Mobile Terminal-Based Remote
Counseling Education System for Middle School Students' Mental
Health.-Design of Online Teaching System for Architecture Major Based
on Virtual Reality Technology -- Multimodal Information Processing
Method of College English Course Online Education System.-Design of
Intelligent Accounting Education System Based on Data Processing
Technology -- Training Simulation System of Aviation
Electromechanical Specialty Based on Multimodal Information
Processing -- Practical Teaching Platform of Aircraft Maintenance Skills
Based on Virtual Reality Technology -- Information Teaching
Management System of College Employment Guidance Course Based on
Hybrid Architecture -- Teaching and training system of power grid
monitoring technology based on multimodal information processing --
AI based Educational Modes and Methods -- Image Watermark Removal
Method of Classroom Teaching Recording and Broadcasting System
Based on Deep Learning -- Research on Online Digital Painting
Creation Education Model Based on Cloud Platform -- Intelligent
Course Scheduling Method of Single Chip Microcomputer Application
Technology Based on Reinforcement Learning -- Intelligent Prediction
Method of Online Open Course Passing Rate of Automation Technology
-- Transmission Line Visual Inspection Method Based on Neural
Network Online Learning -- Intelligent Integration Method of
Innovation and Entrepreneurship Education Management Information
Based n ANNS -- Extraction Method of Emotional Elements of Online
Learning Text Information Based on Natural Language Processing
Technology -- Simulation Analysis Of Entrepreneurial Behavior
Selection Mechanism of Higher Vocational College Students Based on
Teaching Big Data -- College Library Assisted Online Teaching Model
Based on Cloud Service -- Innovative Application of Big Data
Technology in Network Teaching Model of University Courses --
Intelligent Statistical Method of Accounting Information Teaching Data
Based on SVM -- Research on Online Teaching Method of Children's
Sports Enlightenment from The Perspective of Artificial Intelligence --
Deep Level Intelligent Mining Method of Online Education Decision
Information in Economic Management -- Research on Data Mining
Technology of Online Intelligent Education Under Collaborative
Learning -- Resource Assisted Online Teaching Model of University
Library in The Context of Ecological Civilization -- Online Education
and Learning Model of Applied Optics Course Based on Artificial

Intelligence -- Online Teaching Method of Biochemistry Course of Nursing Specialty Based on Association Rules -- Music Distance Education Resource Sharing Method Based on Big Data Platform -- Real-Time Tracking Method of Students' Targets in Wushu Distance Teaching Based on Deep Learning -- Research on Anomaly Detection of Distributed Intelligent Teaching System Based on Cloud Computing -- Abnormal Traffic Detection Method of Educational Network Based on Cluster Analysis Technology -- Simulation Operation System of Civil Aviation Professional Electromechanical Equipment Based on Human-Computer Interaction -- Design of Online Teaching Method for Subject Knowledge of Mathematics Teachers in Higher Vocational Colleges Based on Convolutional Neural Network -- 3D Reconstruction Method of Virtual Teaching Laboratory Model Based on Akaze Features.

Sommario/riassunto

The two-volume set, LNICST 453 and 454 constitutes the proceedings of the 8th EAI International Conference on e-Learning, e-Education, and Online Training, eLEOT 2022, held in Harbin, China, in July 2022. The 111 papers presented in this volume were carefully reviewed and selected from 226 submissions. This conference has brought researchers, developers and practitioners around the world who are leveraging and developing e-educational technologies as well as related learning, training, and practice methods. The theme of eLEOT 2022 was "New Trend of Information Technology and Artificial Intelligence in Education". They were organized in topical sections as follows: IT promoted Teaching Platforms and Systems; AI based Educational Modes and Methods; Automatic Educational Resource Processing; Educational Information Evaluation. .

2. Record Nr.	UNINA9910696634103321
Titolo	Reducing nutrient loads, especially nitrate-nitrogen, to surface water, ground water, and the Gulf of Mexico [[electronic resource]] : topic 5, report for the integrated assessment on hypoxia in the Gulf of Mexico / William J. Mitsch ... [and others]
Pubbl/distr/stampa	Silver Spring, Md. : , : U.S. Dept. of Commerce, National Oceanic and Atmospheric Administration, Coastal Ocean Program, , [1999]
Descrizione fisica	xvi, 111 pages : illustrations, maps ; ; 28 cm
Collana	NOAA Coastal Ocean Program decision analysis series ; ; no. 19
Altri autori (Persone)	MitschWilliam J
Soggetti	Nutrient pollution of water - Mississippi River Watershed Nutrient pollution of water - Mexico, Gulf of Nitrogen - Environmental aspects - Mississippi River Watershed Nonpoint source pollution - Mississippi River Watershed Water quality management - Mississippi River Watershed Hypoxia (Water)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed on July 13, 2009). "May 1999." "Science for solutions."
Nota di bibliografia	Includes bibliographical references (pages 96-111).

3. Record Nr.	UNINA9910797825803321
Autore	Nutz Rainer
Titolo	Agyptens Wirtschaftliche Grundlagen in der Mittleren Bronzezeit / / Rainer Nutz
Pubbl/distr/stampa	Oxford : , : Archaeopress, , [2014] ©2014
ISBN	1-78491-031-7
Descrizione fisica	1 online resource (193 p.)
Collana	Archaeopress Egyptology ; ; 4
Disciplina	301.2970103
Soggetti	Bronze age - Egypt Economic history
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Pages:1 to 25; Pages:26 to 50; Pages:51 to 75; Pages:76 to 100; Pages: 101 to 125; Pages:126 to 150; Pages:151 to 175; Pages:176 to 193
