Sommario/riassunto	The persistence of anti-Semitism is a phenomenon that challenges Jewish historians to make ethical judgments a part of historical analysis. This comprehensive collection meets that challenge as its authors provide fresh insight into the complexities of anti-Semitism. The eight essays included in this volume are by noted scholars, each an expert in a specific historical period-from the ancient world to the twentieth century.

2. Record Nr.	UNINA9910696961903321
