Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from title screen (viewed on Aug. 22, 2008). "December 2001."
Sommario/riassunto	A free service providing digital geographical data for a gateway (data portal) that will supply real-time data and analysis without the need for special hardware, software, and training. The use may retrieve, display, and manipulate multiple types of information, such as satellite images, geologic maps, graphics, live camera feed, three-dimensional images, and spreadsheet data. Users can design their own maps and digital products.
